Hi John,

Marguerite Soderberg will drop off on Wednesday, this week, two color samples for the garage doors to be installed on the Schoolhouse. Our choices were limited because we want to have a wood grain finish. We chose the Mocha color, which we think goes best with the color of the schoolhouse and main house. As I mentioned at the BAR, you cannot see the doors from the street, and you have to drive to the back of the schoolhouse to see the doors.

Please let me know if you have any questions.

Best,  
Richard
