## Mosquito & Tick Treatment Services

Mosquito & Tick Barrier Service cloned

← Option 1

Option 2 of 2

### About this Quote

- **\$190.99** per treatment with a discounted first treatment price of **\$129**.
- Two payment options: Default Pay-As-You-Go where credit card will be charged the quoted per treatment rate plus tax after the season treatments and **save!!!**
- No Long-Term Commitments: The treatments typically end in October. But you can stop your service at any time and for as long as you are received, the discounted price for the first treatment will be charged at standard price.
- We will email you a required, non-binding, NYS DEC Service Agreement for your review upon acceptance of this bid.

**Mosquitoes & Ticks - It's What We Do:** You wouldn't ask us to cut your grass, so don't ask them to be experts at getting rid of ticks. Mosquito control is not an add-on service for Mosquito Joe - it's our expertise and it's all we do. Our technicians are certified and specialized.

Be sure to view the Add-Ons & Upgrades section below for additional service options.

# **Welcome to Mosquito Joe of S. Orange-Rockland Counties**

If you live in the Orange, Rockland, Dutchess, or Putnam County areas of New York then you know that mosquitoes, ticks and fleas in NY are no joke! These outdoor pests have a tendency of ruining our fun outside and they also expose us to insect-borne illnesses like Eastern Equine Encephalitis Virus or EEEV, West Nile Virus, and Lyme disease. Lucky for you, Mosquito Joe of S. Orange – Rockland Counties has you covered throughout areas like Sullivan County, Ulster County, Orange County, Rockland County, Putnam County and Dutchess County offering a variety of services so you and your family can enjoy the outdoors once again.

If you're looking to keep your yard itch-free all season long, check out one of our outdoor pest control services such as mosquito, tick and flea barrier treatments for your outdoor spaces, special event sprays, perimeter pest treatments or our natural solution that uses essential oils like lemongrass and peppermint. We've dealt with a wide array of outdoor spaces and know exactly what to look for, making sure to not only eliminate the mosquitoes, ticks and fleas you already have, but to also identify and remove any places that they could breed or live.

# Our Mosquito, Tick & Flea Control Services in Pine Bush, New York

Mosquito Joe of S. Orange-Rockland Counties provides mosquito control solutions, as well as solutions for fleas, ticks, stink bugs, perimeter pests and stinging insects in Orange, Ulster, Sullivan, Rockland, Dutchess, and Putnam Counties. Our technicians visit your property to deliver convenient and effective outdoor pest control treatments to rid your yard of mosquitoes, ticks, fleas, and more! Check out some of our most popular services:

- **Mosquito Control Barrier Treatments:** We surround your home with a protective barrier treatment that repels mosquitoes, keeping you and your family itch-free for weeks!
- **Tick Control:** Pet owners and parents alike are concerned with tick prevention. To help mitigate that concern our technicians create a tick barrier to prevent serious complications like Lyme Disease.
- **Perimeter Pests:** Perimeter pests include spiders, centipedes, ants and more! Mosquito Joe of S. Orange-Rockland Counties helps prevent these critters from entering your home by treating possible entrance areas around your residence.
- **Special Events:** Whether you're having a graduation party, wedding, holiday BBQ or just want to have your friends and neighbors over for a gathering, Mosquito Joe of S. Orange-Rockland Counties will make sure that mosquitoes stay off the guest list.
- **No-See-Um Control:** No-see-ums, also known as Biting Midges, can certainly be a nuisance while trying to enjoy your backyard no matter the time of day or evening. No-see-ums will readily bite humans and pets, giving them both painful and itchy areas of skin which can cause irritation long-term. For those who are allergic to biting midges/no-see-ums, the bites can be more intense sometimes causing longer-lasting sores. To help, reduce the areas of your outdoor spaces where water will saturate the soil and also call on Mosquito Joe to come out and apply a barrier treatment application that can cut down on the number of these annoying insects.
- **Gnat Control:** Gnats need two things in order to breed – moisture and rotting organic matter, which can commonly be found around your yard! Luckily, Mosquito Joe of S. Orange-Rockland Counties is here to help rid your yard of these pesky gnats!

these pesty gnats.

## Vance Allard

*"It feels great to reclaim your backyard. This is my first year using the service and so far I'm impressed. The customer service is on par with the pest control, GREAT!! All I can say is my family now enjoys our backyard without being eaten alive by mosquitoes. I can grill in comfort again. I much appreciate Mosquito Joe's!!!"*

## Joel Conner

*"VERY pleased with the job that Kenneth from Mosquito Joe did at our house. He was so helpful and friendly that we genuinely felt like he cared for us and wanted to make sure our mosquito population stayed as low as possible. 5 stars!  
Conner Family - Collinsville, IL"*
