Hi Elizabeth, thanks for taking the time to speak to me this morning.

As promised, I am attaching the Press release that outlines the 2 part film series we are working on about the history and vision for the future of Tuxedo.

We are in the process of preparing an outline of topics and lining up "speakers" for the film. The topics are varied very broad. We hope we can capture the essence and rich culture and natural resources Tuxedo offers.

As part of the program, we have identified a few segments that we would like to include and it would involve filming Park residents in their homes.

Some examples would be:

Sally Sonni –Tuxedo Park History

Michael Coleman –Loomis Labs

Sustainability as Economic Development in Tuxedo

Michael Bruno--- Local Business Owner and Entrepreneur

There are many segments we plan on including but do not necessarily involve filming in the Park. For example,

We plan to have a segment on the Pollinator Meadow, and we can include the meadow in the Park in a photo shoot at the Sterling Forest Meadow.

Historical photos and illustrations can also work as visual elements in the film.

Of course, our goal is to create a powerful and informative program so any suggestions or people you may think would be interested in participating, please let us know.

Please feel free to forward my or Dave's information.

Thanks in advance, Deirdre
