Water Synopsis August.doc; August Pumping Report.xlsx; Meter Malfunction.xls; Meter Installs.xlsx;

Good afternoon,

Please find attached an updated Water Report for August 2023, since there has been some changes from the August 14, 2023 report.

Please add the following accounts to the Agenda so I can notify the customers of the boards decision.

1. Barone Account

After speaking with Erin at CBHV (Collection Bureau of Hudson Valley) the charges from Mr. Barone's Past Due water account cannot surpass six (6) years therefore, I am requesting authorization to reverse his Penalty Fees totaling \$10,250.93. This will bring Mr. Barone's outstanding Water balance to \$4,829.14 and Sewer balance to \$7,917.81 for a total of \$12,746.95. Once approval has been granted and the charges have removed CBHV will be able to file suit on the Outstanding Balance.

Beard Account – Mr. Beard has inquired if a decision has been made regarding his July Water/Sewer charges. Please see his email below.

Hi Denise,

Thanks for letting me know. We have an irrigation system that is supposed to pull water from a well that we have on the property. When the irrigation system was turned on this spring, the Village water supply is used to fill up the system and then the well is used for supply thereafter. Unfortunately, the Village supply was not turned off again after initial system fill up so we have been using Village water to irrigate for the past few months.

Can the Village adjust my water bill given that this water was used for irrigation accidentally?

Please let me know. Thanks, Greg

3. The following customers are seeking relief in sewer charges due to a leak in their irrigation system? Biagioni

Gruterich

Hellman

4. Has the BOT considered adjusting the sewer charges of customers who have been on the list for an irrigation meter but has not had their meter installed prior to the systems operation? I am sure this topic will come up again for the October billing.
